Appeals should be made following the [Archery Australia Appeals Policy](#) that is current at the time of the announcement of the Team. The policy can be found on the Archery Australia website.

6. Injury and Deselection

Once Team selections have been ratified, all selected athletes (including reserves) on taking up their selection thereby agree to disclose as soon as practicable all information that has the potential to adversely affect training or competition at any time up until and including participation at the events in which they have been selected relating to:

At any stage following the selection announcement and prior to the events in which they have been selected, should any athlete fail to reach performance expectations in training or competitions, the Selection Committee may recommend removal from the team.

Prior to removal the team member (or their appointed representative) will be presented with the opportunity to participate in a removal interview with the Archery Australia National Team Selection Committee chair and Archery Australia CEO and where possible an independent person nominated by the Archery Australia Board who has not participated in the selection process. Decisions on these matters are open to appeal through the Archery Australia Appeals Policy. Preceding the removal interview, the athlete will be offered access to the Archery Australia National Wellbeing Manager or an alternate counselling session.

At any stage following the selection announcement and prior to the event for which they have been selected, should there be any doubt over the ability of an athlete to compete to the best of his/her ability due to an injury and/or illness, the following process will be adhered to:

- i) At the sole and unfettered discretion of the Selection Committee the athlete will be referred to an Archery Australia designated Chief Medical Officer to undergo a medical examination to determine his/her fitness to participate, which at this stage will be determined based on an assessment of whether or not the injury and/or illness is such that the athlete is physically unable to compete or is at risk of causing medical harm to him/herself, or endangering others.
- ii) If the athlete passes the medical examination conducted by the Chief Medical Officer and/or Archery Australia have concerns over whether or not the athlete is able to compete to the best of his/her ability due to an underlying injury and/or illness the athlete will be required to undertake an Archery Australia designated "Fitness Test".
- iii) The 'Fitness Test' will require the athlete to complete under 'controlled competition conditions' a 720 qualification round followed by a series of matches at least equal to that which they qualified the place. The athlete will only be allowed two attempts to satisfy the requirements.
- iv) In the event that an athlete fails to complete the 'Fitness Test' to the required standards, the Selection Committee may recommend that the selected athlete be removed from the team and replaced with a reserve. The decision is open to appeal through the Archery Australia Appeals Policy.

Written justification will be provided for all removals from the Team.

7. Breach of selection criteria

Any team member may be removed from the Team in the event of a breach of this selection policy, non-compliance with training requirements or a violation of the Archery Australia Athlete Agreement and/or Code of Conduct.

Additionally, from time to time matters or behaviours involving Team members may come to notice that are either unforeseeable, unique, novel or "one off" in nature. Such matters or behaviours may not be covered by relevant Archery Australia policies. Should the National Teams Selection Committee or the Archery Australia CEO deem such matters or behaviours unacceptable, then Archery Australia reserves the right to remove members from the Team.

Prior to removal the team member (or their appointed representative) must be presented with the opportunity to participate in a removal interview with the National Teams Selection Committee Chair and Archery Australia CEO and where possible an independent

person nominated by the Archery Australia Board who has not participated in the selection process.

Written justification will be provided for all removals from the Team. Decisions to remove a member on the basis of these matters are final and may not be appealed.

Any incident or act related to athlete doping in breach of the relevant policies, or any incident that could bring the sport into disrepute will result in the immediate withdrawal of the athlete(s) from the Team. Any future suspension will be subject to investigation and appeal through the appeal mechanisms in place under Archery Australia policy current at the time. Any decision made to investigate or suspend the athlete that deals with or touches upon doping matters or conduct that in the sole opinion of the selection committee might bring the sport into disrepute will be undertaken by the Archery Australia CEO.

Selected Team Members agree not to make any announcement to the media or public in any form (including on social media or personal websites) regarding their selection until after Archery Australia has announced the Team.

10. OTHER ISSUES

Any matters arising from the selection processes, which are not covered within this policy, shall be determined by the Archery Australia Selection Committee acting at their sole discretion.
